Chemistry for the Life Sciences, Second Edition (Lifelines)

Raul Sutton, Bernard Rockett, Peter G. Swindells

Chemistry for the Life Sciences, Second Edition (Lifelines) Raul Sutton, Bernard Rockett, Peter G. Swindells

Presents short topics tied to numerical or conceptual ideas, reinforced with worked examples and questions

Retaining the user-friendly style of the first edition, this text is designed to eliminate the knowledge gap for those life sciences students who have not studied chemistry at an advanced level. It contains new chapters on

- Water, covering the mole concept and colloids
- Gases, discussing pressure, gas laws, partial pressure, solubility of gases, and diffusion
- Metals in biology, including properties, oxygen carriers, biocatalysis, charge carriers, and toxicity

The authors divide their analysis of carbon compounds into two chapters. One focuses exclusively on aliphatic carbon compounds, while the other provides a greatly expanded exploration of aromatic carbon compounds, isomerism, amines and amino acids, including benzene, aromaticity, types of isomerism, and absolute configuration. With a current examination of organic and biological reactions, this instructional volume also features end-of-chapter questions and provides a solutions manual for qualified instructors.

From reader reviews:

Gayle Collins:

As people who live in typically the modest era should be change about what going on or info even knowledge to make these individuals keep up with the era which can be always change and progress. Some of you maybe will probably update themselves by looking at books. It is a good choice for you but the problems coming to you actually is you don't know what one you should start with. This Chemistry for the Life Sciences, Second Edition (Lifelines) is our recommendation so you keep up with the world. Why, because book serves what you want and wish in this era.

Mora Miller:

The guide with title Chemistry for the Life Sciences, Second Edition (Lifelines) has lot of information that you can discover it. You can get a lot of profit after read this book. This kind of book exist new expertise the information that exist in this guide represented the condition of the world currently. That is important to you to find out how the improvement of the world. That book will bring you within new era of the syndication. You can read the e-book on the smart phone, so you can read the item anywhere you want.

Fabian Luton:

You could spend your free time to study this book this reserve. This Chemistry for the Life Sciences, Second Edition (Lifelines) is simple to create you can read it in the park, in the beach, train along with soon. If you did not have much space to bring the particular printed book, you can buy often the e-book. It is make you simpler to read it. You can save often the book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

Sanjuana Day:

You will get this Chemistry for the Life Sciences, Second Edition (Lifelines) by go to the bookstore or Mall. Just simply viewing or reviewing it can to be your solve issue if you get difficulties for the knowledge. Kinds of this guide are various. Not only by written or printed and also can you enjoy this book by simply e-book. In the modern era like now, you just looking from your mobile phone and searching what their problem. Right now, choose your own personal ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still up-date. Let's try to choose right ways for you.
