Qualitative researchers have grappled with how online inquiry shifts research procedures such as gaining access to spaces, communicating with participants, and obtaining informed consent. Drawing on a multimethod approach, **Conducting Qualitative Research of Learning in Online Spaces** explores how to design and conduct diverse studies in online environments. Authors Hannah R. Gerber, Sandra Schamroth Abrams, Jen Scott Curwood, and Alecia Marie Magnifico focus on formal and informal learning practices that occur in evolving online spaces. The text shows researchers how they can draw upon a variety of theoretical frameworks, methodological approaches, and data sources. Examples of qualitative research in online spaces, along with guiding questions, support readers at every phase of the research process.
