INSIDE CHILDREN'S MINDS: DRAWINGS AND STORIES CHILDREN TELL Valerie Yule

Did you realise that your child creates stories about life at an early age?

The scary part is, these stories can shape the rest of the child's life from as early as 6 years old!

Welcome to the world of children and how they see the world - a world of imagination that differs greatly to that of adults. As adults we try to meet children's physical needs and cope with their behaviour. Yet little do we realise that children are constantly creating a world through their imagination...and stories about how the world is.

This book with 40 years of research behind it reveals amazing insights to parents, educators and child psychologists. You'd be amazed by the stories told by children in privileged environments vs. those in disadvantaged and stressful environments. You will be shocked at how these stories determine the future of these children well into adulthood.

By allowing you to step into the world of a child and the stories they create, you will gain a fresh new perspective on their world and realise the power of the stories children create for themselves.

Ultimately, this is a powerful guide for adults to help understand children through their symbols, drawing and stories. It will help you to know what is going on in the minds of children and how to guide them.

The most incredible part of this book is that it will help you realise by changing your child's story that you can actually change their future for the better!

"These stories not only give the reader much delight but also a rare and special insight into how children think." - Dr Dorothy Rowe.

"Your spirited treasury is full of delights and wisdom, as I'd expect,"- Marina Warner.

"I'm immensely impressed by the range and detail of the material. This must surely be a work of value to educators and psychologists." - Dr June Factor.

The book is the fruit Dr. Yule's 40 years of research and work as a clinical child psychologist, school psychologist and academic. The knowledge and stories for this book was compiled from children in schools, hospitals and universities, in Australia, Scotland, England and Northern Ireland.
