Steven Thorn has no trouble settling in at university. He is confident, hardworking and intelligent. When Caitlin Chance catches him off guard he is bemused by the instant attraction, and the more he gets to know, the more he likes.

Yet, Steven has a secret past that is destined to reveal itself, and he is soon to become a stranger to everyone. The wheels are set in motion for his radical upheaval. But first love is a powerful thing, and the connection forged between Caitlin and Steven is not easily broken.

The impossible is only the beginning...

Vanessa Wester's debut novel takes you from the University of Southampton to the depths of the Amazon jungle. An imaginary citadel is waiting to be discovered full of interesting characters, traditions and cultures. There are so many twists and details you will not be able to put this book down.

"Although the author is inspired by novels in the same genre there is nothing wrong in that - most of us take inspiration from one source or another. Vanessa Wester has clearly taken inspiration from her own life and from her imagination. She has clearly spent time creating the imaginary citadel and understands its geography and customs which are made clear to the reader. The story-line flows smoothly... I always think there must be something to recommend a book which you would not normally select."

"When you first start getting into the story you automatically think Vampires, but as you discover more, Vampires is not the correct term for Steven's new family... It's well worth the read and as I got to the end I was frantically swiping my kindle screen looking for more as I wanted to know what happened next. I will definitely be reading the next book and would highly recommend it."

Orchard Book Club

"Not usually the kind of book I like to read, although I was a big fan of Anne Rice in my youth. The unexpected twist in the tale made for compulsive reading, literally forcing you to discover what happens next. This story had it all, brilliantly written, loads of interesting characters, mystery, and romance with an unsettling undercurrent of tension. I cannot wait to read the rest of the trilogy!"

A Dawes

'This is a very exciting read. Would appeal to the Twilight fan-base, but has definitely put its own twist on the genre. A very well constructed piece, all the more impressive for being a debut novel.'

Adam

"This is definitely not another vampire tale. You are left, at the end, with lots of questions, there are so many ways the characters could go! I look forward to the next book and the continuing tale of Steven and Caitlin,

his mother Emily and the rest of the "family" in the Amazon."

Susan

~HYBRID has some scenes of an adult nature. It may be considered unsuitable for younger readers~

Find out what happens next in COMPLICATIONS; and RETURN. You can also find out more about Steven's mother in the prequel, EMILY.

"I fell in love with Caitlin and Steven, the main characters in Hybrid, joined in on their adventures in Complications, and was rewarded with a finale that tied up all of the details and loose ends in Return book 3... A very satisfying ending! I highly recommend this trilogy."

Susan

"A great set of books. A must read for all. Imaginative story somehow believable. I would like to visit the community myself."
