Evaluation of Cancer and Magnetic Fields in an Office: Health Hazard Evaluation Report: HETA

2008-0286-3084 Dr. Kenneth W. Fent, Dr. Elena Page, Department of Health and Human Services Centers for disease Control and Prevention, National Institute of Occupational Safety and Health

The National Institute for Occupational Safety and Health (NIOSH) received a request for technical assistance from the County of Guilford, Public Health Department in North Carolina. The request concerned cancer among employees in the Information Services Department. Employees were concerned about exposure to magnetic fields (MFs) from computer servers and other electrical equipment at the worksite. A survey of workplace MFs was conducted in November 2008. NIOSH findings and recommendations are detailed.
