## Plenty (Penguin Poets) Corinne Lee

Using Walt Whitman's *Leaves of Grass* as a springboard, Corinne Lee's second book of poetry is an eco-epic that investigates and embodies the deterioration of America's environment due to industrial agriculture, fossil fuels, war, racism, and technology. Lee's book-length work draws upon a variety of poetic forms and histories—especially events in 1892, which included a surge in lynching in America and the beginning of our coup d'état of Hawaii—to examine how modern technology facilitated the Holocaust, sustains America's racist prison industrial complex, fuels climate change, and ultimately underlies what has been called the Sixth Extinction. A daring and dazzling narrative of great originality, *Plenty* advocates a feminist ecobuddhist perspective: only by dismantling false hierarchies, especially those of patriarchal capitalism, are we able to recognize that all agents of environmental collapse are one with us.
