Not many people will deny the fact that there can be a lot of sexual tension in the work place. This is especially true when you have a domineering boss who thinks he should be able to have his way with you whenever he wants. In this erotic short story Annie quickly learns that getting back into the work force may not be the same as what it was when she left. Like the thought of being dominated? If so, you must read this erotica expedition. Going to work may never be the same!

It's time for Annie to return to the work force. After years of being a stay at home mom, Annie feels a little out of place when it comes to getting a job. A friend knows of a job opening that might be a good fit for Annie. Will Annie's new potential boss be someone she can get along with? Will he appreciate her, or will she be dominated by her boss? Think her boss will want to have sex with a married woman?

Here is a brief excerpt for this short story:

“Good girl,” he said, pulling his hand away. He examined my juices that were now on his hand. He licked his fingers, enjoying the taste of my creamy filling. Once again he shoved his fingers back up deep inside me. When he withdrew his hand my pussy made a sucking sound of its own. This time instead of licking my juices from his fingers, he moved his hand up to my mouth. I knew what I was expected to do. I licked and sucked my white cream off of his fingers, enjoying every last drop. He took off his tie and turned me around so that my back was facing him. Pulling my arms behind my back, he tied my wrists together with his soft silky tie, holding me firmly the whole time. I was breathing heavily as he turned me back around to face him. “Job a little more than you bargained for?”
