Mad Professor: Concoct Extremely Weird Science Projects-Robot Food, Saucer Slime, Martian Volcanoes, and More Mark Frauenfelder

Within these tantalizing pages lie the keys to the mysteries of science. For here, in strange and delectable detail, are dozens of hitherto secret experiments for concocting slimes and putties, inventing miniature robots and transport devices, growing crystal gardens, and many other useful creations-all crafted from widely available household products. Where did these wondrous projects originate? Apparently in a shadowy toy research laboratory that once operated out of a tiny island in the South Pacific. The Zooper Laboratory has since vanished, but we recovered its crown jewel-a secret notebook: a source of astounding information, fabulously illustrated. Lets just be thankful the pages are wipe-clean.
