**L'ambulatorio in psichiatria dell'età evolutiva: Screening, orientamento diagnostico, consultazione breve (Italian and English Edition) Valentina IVANCICH**

In psichiatria dell'infanzia e dell'adolescenza il primo contatto con il paziente riveste una grande importanza clinica e può far risparmiare tempo e risorse. Una consultazione ambulatoriale ben condotta permette di giungere a un'ipotesi diagnostica rigorosa, orientando invii per approfondimenti e presa in carico; in alcuni casi, può acquisire carattere terapeutico.

Questo volume guida il clinico, anche quando lavora da solo, verso una formulazione diagnostica il più possibile precisa ed esauriente. Il libro illustra uno schema di procedura clinica che integra le diverse prospettive proprie del campo in un'ottica evolutiva, esaminando la metodologia del colloquio, le tecniche per la valutazione cognitiva, neuropsicologica e psicopatologica, i contatti con genitori e scuola.

Questo testo è rivolto a neuropsichiatri infantili, pediatri, psichiatri e agli specializzandi in tali discipline; più in generale, può essere di interesse per chiunque abbia contatti con pazienti in età evolutiva.
