The Curious Incident of the WMD in Iraq Rohan Candappa

The Curious Incident of the WMD in Iraq is a mystery like no other. The detective, and narrator, is Anthony Algernon St. Michael Blair, the Prime Minister of Britain. He knows a great deal about New Labour, sound bites, and why he makes a good leader, and very little about the history of Iraq. He loves cheese and hates Gordon Brown. He discovers what he thinks is the central mystery and sets out to investigate it, but subsequently discovers a deception which leaves him forever linked in an uneasy triangle with a stumbling, inarticulate US president and a genocidal dictator.
