In *The Talking Tree* W.G. Gray presents an encyclopaedic and systematic analysis of the 22 Paths of the Qabalistic Tree of Life and the archetypal principles underlying them in each of the 'four worlds'. This unique work by a leading Qabalist of his generation includes a detailed and comprehensive study of the symbolism of the Tarot, in which he offers an alternative method of allocating the Major Arcana to the Paths in place of the commonly used Golden Dawn system. He also explains how the Western alphabet can be applied to the Tree of Life as a viable alternative to Hebrew letters. This book is a priceless reference work for the serious Qabalah student who has already studied the ten Sephiroth and is looking to move on to the Paths. As well as explaining the function of God-names, archangels, angelic orders and mundane archetypes for each Path, Gray seeks to demonstrate that the Tree of Life is in a continual state of growth and evolution, and that those who study and work with the Qabalah should not be afraid to apply new correspondences to it and rethink some of the traditional assumptions.
