Stroke Prevention in Clinical Practice Daryll M. Baker

Primary care physicians are the first to diagnose transient ischaemic attacks (TIAs), and are the doctors who can undertake a considerable amount of stroke prevention treatment. This book fills the primary care physician's need for a short clear text explaining how to accurately diagnose a TIA, determine what investigations are indicated and how and when to intervene to reduce the risk of stroke. Short chapters are written in point form with clear diagrams and figures, each chapter written by an expert in the field. Stroke is a brain attack and a major cause of disability. Active intervention can prevent stroke especially in high risk groups.
