It's reality-check time! You are at least five months into your tour of parenting duty by now. The complexity of child-training has begun to come into focus. You have learned that as your baby matures both constant and variable factors continually influence his or her development. What behaviors can and should you expect from your pretoddler? Feeding time for your pretoddler, for example, is now more than a response controlled by a sucking reflex. For the pretoddler, mealtime is part of a very complex, conscious interaction between what the child does and what his parents expect him to do. Right and wrong conduct will be encouraged, discouraged, and guided when necessary. In fact, right and wrong patterns of behavior will now be part of your baby's entire day. That's why feeding time, waketime and sleeptime provide wonderful opportunities for training and Babywise Book II will guide you all the way, from the high chair to playpen, from the living room to the back yard. This series teaches the practical side of introducing solids food, managing mealtimes, nap transitions, traveling with your infant, setting reasonable limits while encourage healthy exploration and much more. You will learn how to teach your child to use sign language for basic needs, a tool proven to help stimulate cognitive growth and advance communication. Apply the principles and your friends and relatives will be amazed at the alertness, contentedness and happy disposition of your baby
