This book is a step-by-step tutorial on how to automate the management of BPEL Process manager, SOA Suite, and Oracle Service Bus. Each chapter has a problem-solution approach, starting with a real-world problem and then providing the solution to the problem using illustrative examples. This book is written for BPEL and OSB administrators who deal with Oracle BPEL Process Manager, Oracle SOA Suite, or Oracle Service Bus in a production environment and who need to automate operational tasks. If you are an SOA architect or associated with SOA governance, this book will serve as an eye opener for the many available features to provide production assurance in complex SOA environments. A general awareness of Service-Oriented Architecture is expected, as well as an awareness of Oracle SOA products such as BPEL Process Manager and Oracle Service Bus. No specific management or operational expertise is required.
