Hajjeh MD, Department of Health and Human Services Centers for Disease Control and Prevention, National Institute for Occupational Safety and Health, National Center for Infectious Diseases

This booklet is a revised edition of the NIOSH document Histoplasmosis: Protecting Workers at Risk, which was originally published in September 1997. The updated information in this booklet will help readers understand what histoplasmosis is and recognize activities that may expose workers to the disease-causing fungus *Histoplasma capsulatum*. The booklet also informs readers about methods they can use to protect themselves and others from exposure.
