The Myths of Zionism John Rose

This book is a critical account of the historical, political and cultural roots of Zionism. John Rose shows how this powerful political force is based in mythology; ancient, medieval and modern. Many of these stories, as with other mythologies, have no basis in fact. However, because Zionism is a living political force, these myths have been used to justify very real and political ends -- namely, the expulsion and continuing persecution of the Palestinians.

Rose scrutinises the roots of the myths of Zionism. Mobilising recent scholarship, he separates fact from fiction presenting a detailed analysis of their origins and development. This includes a challenge to Zionism's biblical claims using very recent and very startling Israeli archaeological conclusions.

This book shows clearly how Zionism makes many false claims on Jewish religion and history.
